PROFILE

Knowledgeable Web Developer adept at creating successful websites that meet customer needs. Fully proficient in NEXTJS, HTML, ReactJS, Javascript, and Tailwind CSS. Works great in collaborating with other team members and customers to gather requirements, produce plans and improve designs for usability and functionality. Enjoys learning and applying new skills that will be useful for the upcoming projects. Always on the lookout for the most recent developments and techniques in technology and web development.

WORK EXPERIENCE

MIND FUSION LTD

- **Frontend Developer**
  Oct 2021 - August 2022

- Built a fully functioning website that reviews software products. Worked alone on the website's entire front-end development.
- Designed and optimized some of the pages on the website using Figma
- Involved not only in front-end development but also in some parts of the API and in debugging the website
- Convert mockups into usable web presence with HTML, JavaScript, React, NextJS, Tailwind CSS, etc.
- Discussed site and app requirements with clients to produce actionable development plans.
- Coded using HTML, CSS, React, and JavaScript to develop features for both mobile and desktop platforms.
